Healthcare Personnel Preparedness Checklist for 2019-nCoV

Front-line healthcare personnel in the United States should be prepared to evaluate patients for 2019 novel coronavirus (2019-nCoV). The following checklist highlights key steps for healthcare personnel in preparation for transport and arrival of patients potentially infected with 2019-nCoV.

□ Stay up to date on the latest information about signs and symptoms, diagnostic testing, and case definitions for 2019-nCoV disease (https://www.cdc.gov/coronavirus/2019-nCoV/summary.html).
☐ Review your infection prevention and control policies and CDC infection control recommendations for 2019-nCoV(https://www.cdc.gov/coronavirus/2019-nCoV/infection-control.html) for:
Assessment and triage of patients with acute respiratory symptomsPatient placement
$\hfill \square$ Implementation of Standard, Contact, and Airborne Precautions, including the use of eye protection
☐ Visitor management and exclusion
\square Source control measures for patients (e.g., put facemask on suspect patients)
☐ Requirements for performing aerosol generating procedures ☐ Be alert for patients who meet the persons under investigation (PUI)(https://www.cdc.gov/coronavirus/2019-nCoV/infection-control.html) definition
$\ \square$ Know how to report a potential 2019-nCoV case or exposure to facility infection control leads and public health officials
 Know who, when, and how to seek evaluation by occupational health following an unprotected exposure (i.e., not wearing recommended PPE) to a suspected or confirmed nCoV patient Remain at home, and notify occupational health services, if you are ill Know how to contact and receive information from your state or local public health agency
